Did you have any other US source income? Yes _____ No _____

Did you have any gambling losses in the US? Yes _____ No _____

If so, how much did you lose? _____

You must state your losses, since you cannot get a refund otherwise. Refunds are determined by subtracting US losses, for the entire year, from the total annual winnings and computing tax on the difference.

★ Gambling losses can be proved with statements from the casino, ATM withdrawals at the casinos, and cancelled checks for cash at the casinos. A diary of winnings and losses with date, game, name of casino, and names of other present is also adequate. Winnings from blackjack, baccarat, craps, roulette, big-6 wheel, and pari-mutuel dog & horse racing are not taxable when won by a non-US person. We do not need to see this information, but you should keep it for at least 6 years, since the IRS has the right to audit returns and request proof of losses after a refund has been issued.
