

# Are you a U.S. Citizen?

---

Amendment XIV, Section 1, Clause 1 of the U.S. Constitution directs that all persons born in the United States are U.S. citizens. This is the case regardless of the tax or immigration status of a person's parents. Furthermore, a person born outside the United States may also be a U.S. citizen at birth if at least one parent is a U.S. citizen and has lived in the United States for a period of time. **American Expat Tax Services** is not able to make a legal determination of a person's nationality, but we can guide our clients in discovery of their correct status.

It is imperative that you discern if you are a U.S. citizen, because all U.S. citizens must generally file an annual tax return to report their income from all sources worldwide. For U.S. citizens, this means that no matter where you live or where your income comes from, you must file a U.S. tax return. In addition to a U.S. tax return, there are various additional reporting requirements in regards to non-U.S. assets and financial Accounts. Failure to file tax returns and additional information filings can result in penalties starting at \$10,000.00 USD.

## **You can obtain U.S. citizenship in two ways:**

1. At birth or
2. Through naturalization

## **One acquires citizenship at birth when they are:**

-  Born in the United States or certain territories or possessions of the United States, and are not born under Diplomatic Status in the United States; **OR**
-  Born outside the United States and one or both parents was/were U.S. citizens at the time of their birth and had resided in the U.S. at some time. The law in effect at the time of birth determines how long one's parent or parents must have lived in the U.S.

## **Acquiring U.S. Citizenship through Naturalization:**

Naturalization is a process through which citizenship is granted for persons who apply and fulfill a set of requirements laid out in the Immigration and Naturalization Act (INA) of the U.S.

The rules allow certain persons born outside the United States to acquire U.S. citizenship in an expedited manner without having to complete a full naturalization process. This process is for certain individuals who have some US citizenship in their bloodline.

The laws regarding U.S. citizenship have changed extensively over time with two major changes coming into effect in 1978 and 2001. The law in effect at the time of one's birth will generally dictate the requirements.

## General Provisions for Acquisition of Citizenship for Children Born Abroad

INA Section	Status of Parents	Resident or physical Presence Requirements	Child is a U.S. Citizen
301(c)	Both parents are U.S. citizens	At least one U.S. citizen parent has resided in the United States or outlying possessions prior to child's birth	At Birth
